## Overview

Visual Product Configurator Save for Later Addon gives the users the possibility to save their personalized products for future usage in their account.

# I. Installation

## A. Requirements

1. WordPress (minimum version: 3.6)
2. Woocommerce (minimum version: 2.4)
3. Woocommerce Visual Product Configurator (minimum version: 2.3.8)

## B. Installation process

The zip file downloaded from CodeCanyon contains:

- The Visual Product Configurator Save For Later Addon user manual (User Manual.pdf)
- The Visual Product Configurator Save For Later Addon Installable plugin zip file (Visual Product Configurator Configurator Save For Later Addon.zip)

1. First, extract the archive in a folder of your choice and let's start the installation.
2. Go to your WordPress Admin Panel and click on **Plugins > Add New** to access the plugins installation screen
3. Then click on the upload link to access the plugin upload page
4. Click on the "Choose file" button and select the plugin installable zip archive named visual-product-configurator-save-for-later-addon.zip in the folder extracted in the first step.
5. Click on the Install Now button to run the installation.
6. Once the plugin is successfully installed, please click on the Activate Plugin link to activate the plugin.
7. Next, you have to enable the "save for later" feature on the "configuration settings" page by setting the "Activate save for later" option to "Yes".
8. Click on "publish"
9. A "save" button will be added to the configurator page when the plugin is activated.

NOTE: The "save for later" addon allows you to save (any stage) the custom products you build, for future use.
